Diversity Scholarship Opportunities

Hi,

Thank you for your patience.

Here is a list of scholarship and travel stipend opportunities to attend tech conferences around the globe. I also included a few links for educational workshops. Please look through each event and be sure to watch for the upcoming deadlines, some are as soon as tomorrow, February 23rd.

Most of these events are based in the US and throughout Europe. However, I can research for those hosted in other countries. If you have an event that you want to attend but aren't sure if there is a scholarship available, please reach out to me and I will do my best to get one established. I can also refer you to a sponsor but please note sponsorship isn't a guarantee.

Need travel assistance? Just ask and I will see what I can get worked out.

Meal stipends? Again, just ask. And I will do my best to help you.

Childcare? Ask, ask, ask. Most conferences now offer support for this.

If you have any events that you want to add or include to this list for others to see, please pass them along.

I will forward another list soon to include free or discounted event tickets.

Best of luck,
Shannon Foster
